INTRODUCTION

PIEDMONT DIRECTORY CO., publishers of Miller's Asheville City Directory, present to subscribers and the general public, this, the 1943 edition of the Asheville City Directory, which also includes Beverly Hills, Biltmore, Biltmore Forest, Broadview, East Biltmore, Lake View Park, Linwood Park, Oakley, Oaklyn Park, Oteen, Sayles Village and South Biltmore.

Confidence in the continued growth of Asheville's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Asheville to the world.

The enviable position occupied by the Asheville City Directory in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Asheville Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 33 to 547, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Asheville and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE BUYER'S GUIDE, preceding the Classified and separately paged from 1 to 60, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Asheville and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community and famous resort like Asheville, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directry service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 549 to 631, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 633 to 822. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a resort, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Asheville and vicinity.

The Asheville Directory Library

Through the courtesy of the publishers of the Asheville City Directory, a Directory Library is maintained in the offices of the Asheville Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Education—	Institutions of higher learning include St. Genevieve of the Pines, Asheville School for Boys, Asheville College and Biltmore College. 16 public schools, including 1 junior college, 1 senior high school and 2 junior high schools. 3 parochial schools. Number of pupils in public schools, 9,248; teachers, 274. Value of public school property, $5,345,580.25.
Public Libraries—	2, with total of 64,475 volumes.
City Statistics—	Total street mileage, 200.54, with 153.06 miles paved. Miles of gas mains, 94; sewers, 181. Number of water meters, 13,396; light meters, 12,110; gas meters, 2,701. Capacity of water works, 700,000,000 gallons; daily average pumpage, approximately 11,500,000 gallons; miles of mains, 274; value of plant, $5,000,000. Fire department has 63 men, with 5 stations and 11 pieces of motor equipment. Value of fire department property, $280,000. Police department has 66 men, with 1 station and 13 pieces of motor equipment.

Asheville from Beaucatcher Mountain

POPULATION

Asheville is the county seat of Buncombe County, and one of the principal resort centers of the eastern U. S. The city has a population of 51,310 according to the report of the U. S. Census of 1940, with a metropolitan area population of 76,324.

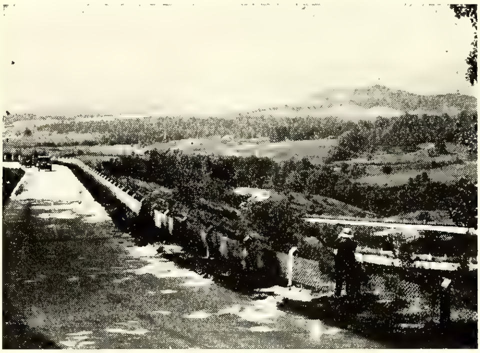
HISTORY

Asheville was founded in 1797 by John Burton, the city being known for about three years of its early history as Morristown. The name was later changed to Asheville, in honor of Samuel and John Ashe, noted men of that period.

The city has long been a resort center, the first resort hotel having been constructed near the Sulphur Springs in the western part of the city, west of the French Broad River. Later the tourist traffic increased and other resort hotels were built, including the old Battery Park Hotel on the site now occupied by the modern structure. Other hotels have been constructed with growth of tourist trade, through expansion of transportation facilities, including railways and highways into the highlands. Industry and agriculture have also developed in the mountain section, to the point that Asheville has become a marketing and shopping center for 18 counties of western North Carolina.

GOVERNMENT

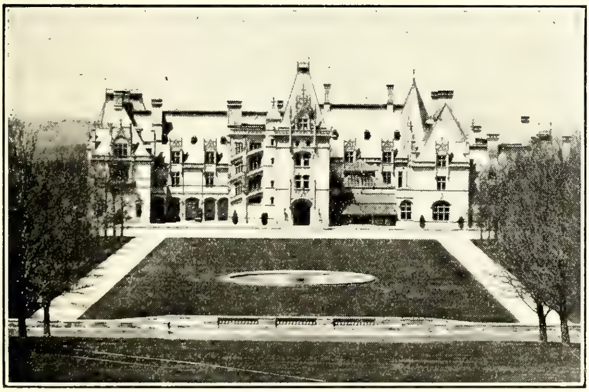
Buncombe County is governed by a board of three commissioners. Asheville has the council-manager form of government, which includes a mayor and six other councilmen and a city manager. The two governmental bodies are housed in the handsome city and county buildings which flank the central city plaza. The city has one of the lowest fire records of any city of its size in the country, due to an efficient fire department, and the police department has become highly effective with the aid of radio, cooperation with state and county law-enforcement officers and by means of the police-cruiser system. Two police radio stations are located here, one atop the Buncombe County Building and the other a State police radio station, on the Black Mountain highway.



Excellent Highways Lead in Every Direction

TOURIST ATTRACTIONS

Scenic and other attractions of Asheville and western North Carolina are always of paramount interest to visitors. The famous Biltmore House and Gardens, located in the midst of the 15,000-acre Biltmore Estate in Asheville, have been open to public view since 1930. The noted mansion, adjudged one of the finest private homes in the world, was constructed nearly half a century ago by the late George W. Vanderbilt. The House, built after the architectural pattern of the French chateaux, contains a vast collection of objects of artistic and historic value, gathered at great cost by Mr. Vanderbilt, in all parts of the world. Notable among the priceless treasures on display are the chessmen of Napoleon, the ceremonial robes of Cardinal Richelieu, ancient tapestries which graced the tent of Francis I at the Field of the Cloth of Gold, and a myriad other rare and precious objects.



Biltmore House

Surrounding the House, the vast expanse of gardens and landscaped park presents a great mass of flowers and superbly-designed vistas to the beholder throughout the spring, summer and autumn seasons.

In Riverside Cemetery are located the tombs of the famous writer, O. Henry, and Zebulon Vance, Civil War Governor of North Carolina, and the now-famous marker erected to the memory of 18 German sailors by members of the Kiffin Rockwell Post of the American Legion. This is the only monument ever erected by American soldiers to the memory of their foreign foes. Also in Asheville, in the city of his birth, is the tomb of the late lamented Thomas Wolfe, internationally-known author of "Look Homeward, Angel," "Of Time and the River," "The Web and the Rock" and "You Can't Go Home Again."

The famous Craggy Rhododendron Gardens, located on the crest of the Great Craggy Mountains near Asheville, are one of the noted scenic attractions of the region near the city. The gardens, which present the massed bloom of millions of purple rhododendron shrubs in June, are reached by means of a link of the famous Blue Ridge Parkway and a forest motor road via Barnardsville, and are the objective for many visitors in Asheville during the Rhododendron Festival.

Unique Grove Park Inn

Grove Park Inn, because of its unique setting and architecture, is a point often visited in the city. Circling the summits of the mountains

Mount Mitchell, Highest Peak East of the Rockies near the city, the Asheville Scenic Highway reveals surpassingly beautiful vistas to the motorist.

In the surrounding highland region, the beauty of the Sapphire Country, Chimney Rock and Lake Lure, the Blowing Rock and Linville sections, the Tryon resort region, and the sections near Hendersonville and Waynesville are of interest to visitors.

Mount Mitchell, highest mountain in eastern America, and Mount Pisgah in the Pisgah National Forest, may be climbed by the motorist.

THE GREAT SMOKY MOUNTAINS NATIONAL PARK

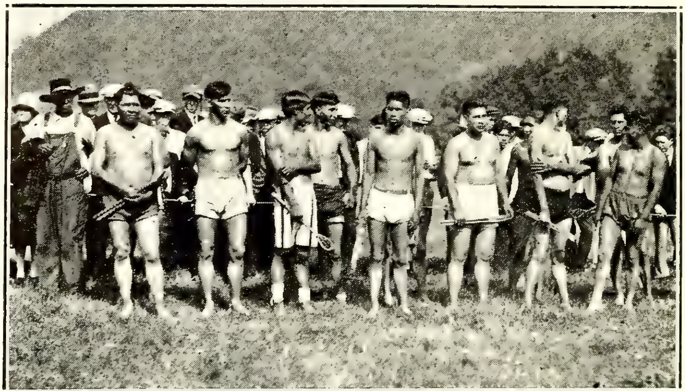
A Scene in the Smokies

Asheville is the eastern gateway city to the Great Smoky Mountains National Park, the nation's newest and most popular playground. This great scenic region with its majestic peaks and deep valleys, its vast expanse of virgin forests, its clear trout streams and tumbling waterfalls, is a center of interest for visitors. Nearly 700,000 visitors entered this park last season. Excellent highways connect Asheville with the Great Smokies, and on the eastern approach to the park is located the 60,000 acre reservation of the Eastern Band of Cherokee Indians. Here live 3,000 Indians, occupying their ancient hunting grounds and pursuing their ancient crafts and customs, under supervision of the Government.

The Chimney Tops, Smoky Mountains National Park

THE NATIONAL PARKWAY

Through western North Carolina the $30,000,000 "Blue Ridge Parkway" is now under construction, connecting the Shenandoah National Park in Virginia with the Great Smoky Mountains National Park in Tennessee and North Carolina. This great touring route, when completed along the summits of the highest of the Appalachian peaks, will be the finest motor-way in America. Between Roanoke, Va., and Asheville, N. C., 140 continuous miles of the Parkway are open to travel, and the remainder of the route between these two cities is nearing completion.



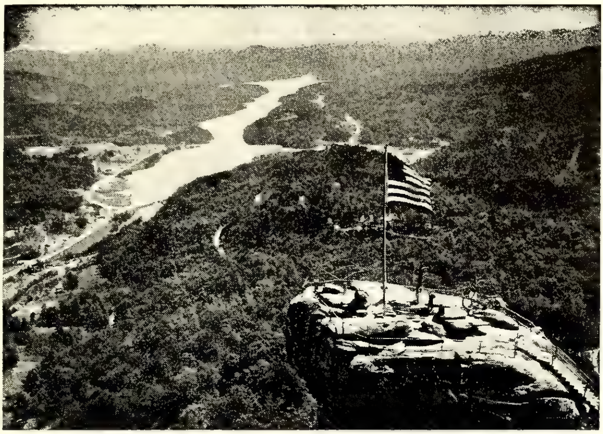
The Indian Ball Game Is More Strenuous Than Any Game of the White Man

SPORTS

Asheville and western North Carolina comprise a region which is a paradise for outdoorsmen. In Asheville, five golf courses, adjudged among the finest in the South, offer grass greens and fairways to the golfer. These are the courses of the Asheville Country Club, the Malvern Hills Golf Club, the Biltmore Forest Country Club, the Beaver Lake Golf Club, and the Municipal Golf Links. Over a score of excellent courses are to be found in the resort centers of the highlands.

Tennis courts, swimming pools and other recreational facilities are provided in Asheville. The City Recreation Park, with its huge outdoor pool, its lake for boating, its skating rink, its zoo and amusement devices, is a center of attraction.

Mount Pisgah and the Rat



View of Lake Lure and the Valley. The Top of Chimney Rock Is in the Foreground

More than 70 artificial lakes, located in all parts of the "Land of the Sky," provide opportunities for boating, sailing and fishing. Through the mountains many hundreds of miles of trails are open to the hiker and horseman. Streams of the region are well stocked in most cases with brook and rainbow trout, and the five game preserves in the western North Carolina region provide good hunting for deer in the surrounding terrain during the open hunting seasons. Bear, quail, rabbits and other small game are also plentiful in most of the mountain regions, and during the open season, nimrods from practically every state in the Union come to this section. During five seasons, deer hunts have been held in the Pisgah National Game Preserve.

Trout Fishing

Horseback-riding along the many enticing mountain trails is one of the favorite recreations among visitors. Horse shows at Tryon, Blowing Rock, Hendersonville and Linville each year are events of great interest to followers of equestrian activities.

In the mountain region near Asheville are located nearly 50 camps for boys and girls, which operate during the summer months and provide excellent summer recreational programs for thousands of boys and girls of school age.

In western North Carolina also are located the great religious assemblies, sites for summer recreation and conferences for the members of a number of denominations. These include the Baptist assembly at Ridgecrest, the Presbyterian assembly at Montreat, the Y.M.C.A. assembly at Blue Ridge, the Methodist assembly at Lake Junaluska, the assembly of the Associate Reformed Presbyterian Church at Bon Clarken near Hendersonville, and the Episcopal assembly at Lake Kanuga.

Asheville Senior High School

CLIMATE AND HEALTH

An unsurpassed climate, which combines light, cool, exhilarating summers and mild winters, a large percentage of sunny days, mountain-protection from severe storms and a dry atmosphere, has long been a principal attraction of Asheville and the western portion of North Carolina. The health-giving qualities of this climate have been a factor in luring here many health-seekers in search of surcease from many different afflictions. Many well-equipped sanatoria for the treatment of pulmonary and nervous afflictions are located in and near Asheville. Most notable among these sanatoria are the U. S. Veterans Hospital at Oteen, just east of the city limits, and the North Carolina State Tuberculosis Hospital, near Black Mountain. New Moore General Army Hospital, with 2000 beds, near Swannanoa, opened in October.

INDUSTRIES

In addition to the large volume of tourist trade, Asheville is a center for industries. Located near here are the great rayon plant of the American Enka Corp.; the huge pulp and paper plant of the Champion Paper and Fibre Co., at Canton; the Sayles-Biltmore Bleacheries; the Beacon Mfg. Co., makers of blankets; the Han Rees Tannery; the National Casket Co.; and numerous other plants manufacturing mica products, hosiery, dimension lumber, furniture, food products, barrel staves, rayon garments, and other articles.

American Enka Plant

Near Brevard is located the new cigarette paper mill of the Ecusta Paper Corp., where fine cigarette papers are made from flax.

The native industries which produce homespun woolens, rugs, native pottery, native ironwork, and numerous other woven and manufactured articles, are noted throughout the country.

Asheville is also a center for rapid growth in mining activities. Mica and feldspar mines near Spruce Pine, quartz mines, granite quarries, vermiculite mines, marble quarries, copper mines and many other diversified mineral developments add to the importance of the mining industry here. Recent reopening of old gold mines, for which this region was once famous, and discovery of new gold ore deposits, has focussed mining interest on this development in the last few years.

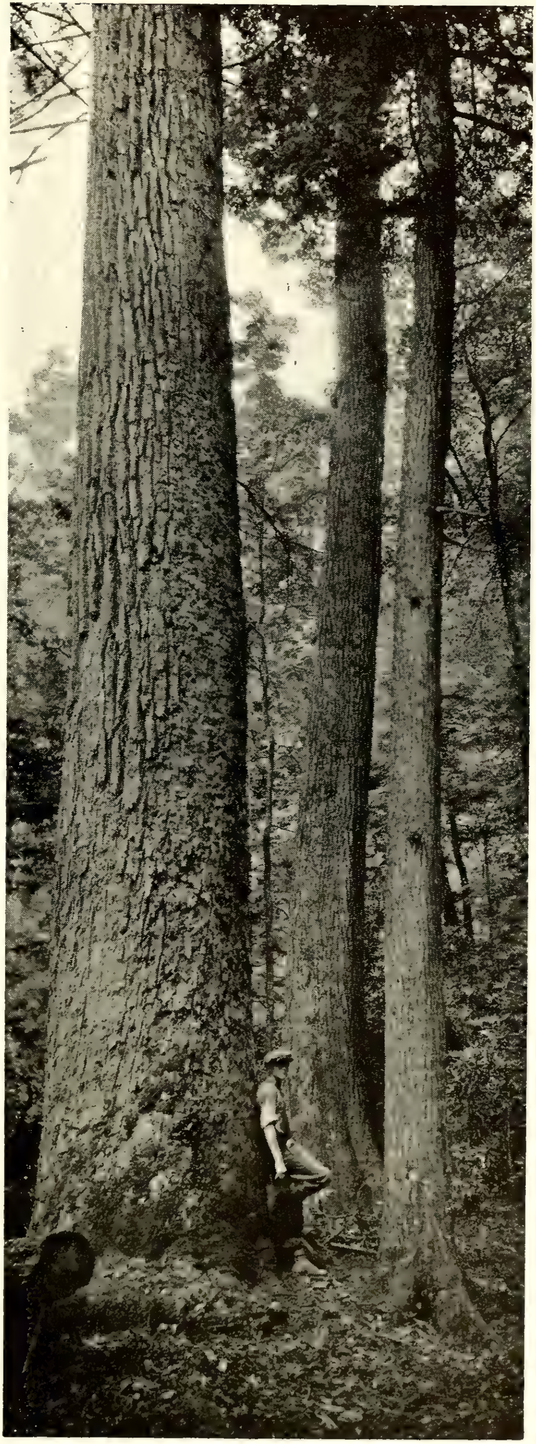
AGRICULTURE

Western North Carolina is noted for its production of apples, Tryon grapes, cattle and burley tobacco. Asheville is a marketing center for these products, the city having three sales warehouses for tobacco and an auction center for cattle and other farm animals. The region is a general farming area also, and many crops are produced. Timber is also a noted product of the highlands.

TRADE AND COMMERCE

As the principal commercial center for 18 counties, Asheville is one of the most important trade centers of North Carolina, the city having rated second in retail trade in the state in recent compilations.

Due to its large trade area and the many hundreds of thousands of visitors touring western North Carolina at all seasons of the year, the city has become one of the finest high-class shopping centers in the South.



Large Stands of Virgin Timber Are Found Throughout Western North Carolina

Rhododendron Blossoms in the "Land of the Sky"

WATER SUPPLY

Asheville's water supply is the purest to be found. The water, coming from the summits of the high peaks, is noted for its soft quality and its lack of impurities. The city water system is one of the few gravity systems in existence, and Buncombe County is one of the few counties in the U. S. providing water by means of mains along most highways in the county.

The
City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

CLASSIFIED
BUYERS' GUIDE
OF THE CITY OF
ASHEVILLE
NORTH CAROLINA

1943

The Buyers' Guide contains the advertisements and business cards of the more progressive business men and firms in the city, classified according to lines of business

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1943

Copyright, 1942, by Piedmont Directory Co.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The 🔔 preceding names denotes householders and places of business having telephones.

(c) denotes colored.

The
CITY DIRECTORY

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

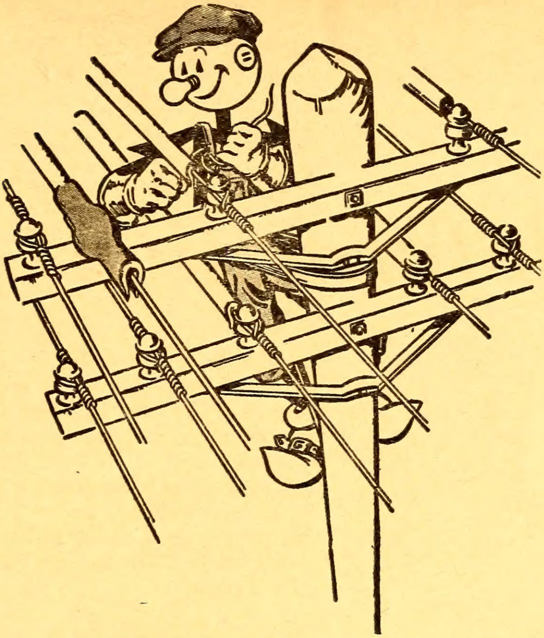
Has is ever occurred to you how much information you could get from this book, if you really knew how to use it.

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

Consult Your Directory

Accurate Information is worth all it costs



24 HOURS A DAY - 7 DAYS A WEEK IS OLD STUFF TO US!

We cheered, too, when the Government called on industry to work twenty-four hours a day, seven days a week, *until this war is won.*

But continuous production is nothing new to the electric industry. We've *always* worked that way. That's one big reason why we were *prepared* to power the factories that are filling the sky with planes, the earth with tanks, the sea with ships.

Production schedules that stagger the world are possible only because America *is* so power-*full*. America has far more electric power than all the Axis countries *combined*. And today's power is quickly available at almost any point of need.

These things have been accomplished because America's electric companies have been built and operated *the American way*—by good business management.

Everybody READS THE *Want Ads!*

. . . and everybody *needs* the Want Ads! Buy with them — sell with them — hire with them — rent with them — use them for a dozen purposes! Hard-working business messengers they are — highly effective, but low in cost.

Subscribe *to Both The Citizen and The Times*

The accepted shopping guides and source of news for Asheville and all Western North Carolina. Read both daily — for local, state, national and world news!
